

MEDICINES / ADMINISTERING MEDICINES TO STUDENTS

Under certain circumstances, when it is necessary for a student to take medicine during school hours, the District will cooperate with the family physician and the parents if the following requirements are met:

- There must be a written order from the physician stating the name of the medicine, the dosage, and the time it is to be given.
- There must be written permission from the parent to allow the school or the student to administer the medicine. Appropriate forms are available from the school office.
- The medicine must come to the school office in the prescription container or, if it is over-the-counter medication, in the original container with all warnings and directions intact.

Exceptions:

- Students who have been diagnosed with anaphylaxis may carry and self-administer emergency medications including auto-injectable epinephrine provided the pupil's name is on the prescription label on the medication container or device and annual written documentation from the pupil's parent or guardian is provided that authorizes possession and self-administration. The student shall notify the school office secretary as soon as practicable following the use of the medication;
- For breathing disorders, handheld inhaler devices may be carried for self administration provided the pupil's name is on the prescription label on the medication container or on the handheld inhaler device and annual written documentation from the pupil's parent or guardian is provided that authorizes possession and self-administration.

The District reserves the right, in accordance with procedures established by the Superintendent, to circumscribe or disallow the use or administration of any medication on school premises if the threat of abuse or misuse of the medicine may pose a risk of harm to a member or members of the student population.

This policy and any related policies or amendments to such policies shall be forwarded to the District liability insurance carrier for review.

MEDICINES / ADMINISTERING MEDICINES TO STUDENTS

(Medication Procedures)

Prescription Drugs

For occasions when it is necessary for a student to receive a prescription drug during the school day, the following procedure has been established to ensure the protection of the school and the student and to assure compliance with existing rules and regulations:

Administration by school personnel:

- The medication must be prescribed by a physician.
- The parent or guardian must provide written permission to administer the medicine to the student. Appropriate forms are available from the school office.
- The medication must come to the school office in the prescription container as put up by the pharmacist. Written directions from the physician or pharmacist must state the name of the patient, the name of the medicine, the dosage, and the time it is to be given.
- An administrator may designate a school employee to administer the medication.
- Each administration of prescription drugs must be documented, making a record of the student having received the medication.
- Drugs must be kept in their original containers in a locked medicine cabinet.

Self-administration:

- When the physician feels it is necessary for the student to carry and self-administer the medication, the physician shall provide written recommendations, to be attached to the signed parent permission form except in the case of medication for diagnosed anaphylaxis and breathing disorders requiring handheld inhaler devices. In these cases the student's name on the prescription label is sufficient for the physician's recommendation.

REGULATION**REGULATION**

- The parent or guardian must provide written permission for the student to self-administer and carry the medication. Appropriate forms are available from the school office.
- The medication must come in the prescription container as put up by the pharmacist.

Over-the-Counter Medication

When it is necessary for a student to receive a medicine that does not require a prescription order but is sold, offered, promoted, and advertised to the general public, the following procedure has been established to ensure the protection of the school and the student:

Administration by school personnel:

- Written permission must be provided by the parent or guardian for the administration of specific over-the-counter drugs.
- Any over-the-counter drug or medicine sent by the parent to be administered to a student must come to the school office in the original manufacturer's packaging with all directions, dosages, compound contents, and proportions clearly marked.
- An administrator may designate a school employee to administer a specific over-the-counter drug.
- Each instance of administration of an over-the-counter drug must be documented in the daily log.
- Over-the-counter drugs must be kept in their original containers in a locked medicine cabinet.

Self-administration:

- Written permission must be provided by the parent or guardian for the administration of specific over-the-counter drugs by the student.
- Over-the-counter drugs or medicine sent by the parent to be administered by the student must be kept by the student in the original manufacturer's packaging, with all directions, dosages, compound contents, and proportions clearly marked.

REGULATION**REGULATION**

- *Necessity* for self-administration of an over-the-counter drug or medicine shall be determined by the student's physician and must be verified by a signed physician's statement attached to the parent or guardian permission form, indicating the specific drug or medicine.

Protection of Students

Use or administration of medication on school premises may be disallowed or strictly limited if it is determined by the Superintendent, in consultation with medical personnel, that a threat of abuse or misuse of the medicine may pose a risk of harm to a member of the student population.

The student shall take extraordinary precautions to keep secure any medication or drug, and under no circumstances shall make available, provide, or give the item to another person. The student shall immediately report the loss or theft of any medication brought onto school campus. Violation of this regulation may subject the student to disciplinary action.

EXHIBIT **EXHIBIT**

**MEDICINES / ADMINISTERING
MEDICINE TO STUDENTS**

(Request for Giving Medicine at School)

Name _____ Grade _____

Teacher _____ School _____

Medication _____

Diagnosis/reason for giving _____

Time to be given _____ a.m. Time to be given _____ p.m.

Dates from _____ to _____

Prescription medication must be in the original container as prepared by a pharmacist and labeled, including the patient name, name of medication, dosage, and time to be given. An over-the-counter medication must be in the original packaging, with all directions, dosages, compound contents, and proportions clearly marked. Student misuse of medication being self-administered may result in seizure and disciplinary action.

Parent's or Guardian's Signature Date

A signed physician's statement indicating the necessity must accompany any request for self-administration of medicine, whether it is prescription or over-the-counter medicine except in the case of medication for diagnosed anaphylaxis and breathing disorders requiring handheld inhaler devices. In these cases the student's name on the prescription label is sufficient for the physician's recommendation.
